

A vintage photograph of four young boys sitting on the steps of a library entrance. They are all wearing dark jackets and flat caps. The boy on the far right is holding a book up to his face, while the others are looking down at books in their hands. Two dark, rectangular library trunks with metal studs are on the ground; one in the foreground has 'PUBLIC LIBRARY' printed on it. A sign above the door reads 'LIBRARY OPENS 9 AM'. The title 'PART of our LIVES' is overlaid in large, white, sans-serif capital letters, with 'of our' in a smaller font between 'PART' and 'LIVES'.

"This is a landmark book. Wayne A. Wiegand, if there was any doubt, is a fine historian. He is also a fine scholar and has a supple grasp of contemporary theory. This book blends both but is overwhelmingly straight-on history done chronologically, extraordinarily well documented and imaginatively researched. . . . It is an excellent history that should be read throughout the profession and beyond."—*Library Quarterly*

"Authored by one of the titans of American library history, this volume is a celebration of the transformative role public libraries have played in US society since the second half of the nineteenth century. . . . A good read for anyone, librarian or not."—*CHOICE*

"Millions of us have come through public library doors to find purpose, shelter, story, a sense of belonging, and much, much else. As *Part of Our Lives* reminds us, this legacy deserves the investment of hard work and imagination that will be required to keep the doors open."
—*Los Angeles Review of Books*

"This book presents a fascinating snapshot of social history in local communities, well compiled, and with a thoughtful commentary."—*Library & Information History*

"This is a must-have book for all public, library-school, and college libraries and one that should be read by all librarians."—*Booklist*, starred review

"In seeking the patron's perspective, Wiegand finds that the library's role in popularizing reading and providing community spaces is just as crucial to the people the library serves."—*Publishers Weekly*

"Compelling and oftentimes amusing read."—*Library Journal*

"I finished *Part of Our Lives* appreciating its readability and the ground-level perspective it provided readers. . . . Anyone teaching a course in United States history or the history of American education would benefit from what Wiegand has to offer because of the connection between schools and libraries in society."—*History of Education Quarterly*

"[Wayne Wiegand's] work has embraced the 'new history' of recent decades, including the use of critical cultural theory, especially that relating to place and community. For good reason, Wiegand is regarded as the 'Dean of American library history studies.'"—*Social History*

"Wiegand's commitment to libraries and his extensive grounding in American library history make this people's perspective account particularly useful for scholars and others interested in librarianship, cultural studies, and American history."—*Indiana Magazine of History*
